bcdesigns

FEBRUARY 2022

bcdesigns

Our HQ is nestled away in the Essex countryside and, from our professional office team to our workshop engineers, we produce timeless bathroom products to last a lifetime. It has never been more important to create a personal space to relax, as well as invigorate, and that is why every bath, basin, cabinet and tap that we create is made with you in mind.

Over the last 21 years, we have expanded our range of freestanding baths to include both compact and spacious designs in luxury materials such as hand worked Copper (Page 4) and our exclusive Cian® solid-surfacing (Page 42).

Our brand-new painting workshop allows us to add a splash of colour to any roll top bath (page 40) in our range and all our Victrion brassware (page 125) is plated to order in the UK.

2022 sees us expand our designs into ceramics (page 108) and furniture (page 116), focusing on traditional profiles and shapes, making this our largest brochure yet! We hope you enjoy!

Contents

At BC Designs we believe that bathrooms are essential spaces for living and unwinding in our homes.

PAINTED FOR YOU
PAINTED FOR YOU

SIGNATURE RANGE
bc

At BC Designs we know and love classic design and materials but also appreciate the value of modern techniques.

Each traditional acrylic roll top bath reproduction is crafted with the original in mind but in modern materials for comfort and ease of installation.

Our bespoke colour service is done in house in our painting workshop and now extends to copper baths as well as our classic acrylic rolltops.

Our new range of copper & brass baths are made in the traditional hand-crafted manner used for centuries and plated in our exciting choice of finishes.

a timeless classic

Our copper baths

BC Designs beautiful copper baths are handcrafted using traditional techniques.

They are hand-made and every bathtub is a unique work of art completely different from one to the next. All of the curves and bends are made with no more than a hammer, an experienced eye and a strong arm.

Variations and undulations will occur which is why each piece is distinctive. There will be blemishes, marks and small scratches in some areas and inevitably, due to the authentic characteristics of the material, surface textures will be visible.

Our copper baths add character to a bathroom and you have the option of maintaining its beautiful shine or leaving it to age and weather over time.

Our copper baths are made from 99.5%+ 15-18 gauge pure copper.

Why choose copper?

Heat Retention

Copper baths retain the heat of your water for much longer than acrylic versions. The temperature is much better than an acrylic bath meaning that you can have a longer soak without topping up your tub!

Hygiene

A little-known fact that few homeowners are aware of is that copper is actually a super metal when it comes to killing germs. While most viruses can last for days on steel and glass, they are killed within hours or sometimes minutes on copper! The same applies to Brass as well!

So, for those deciding on a bathroom renovation, copper baths and basins not only look stunning and bring a touch of luxury to a bathroom project but they also provide a really important function in helping the room to stay germ free.

Finish Options

Our Copper range is incredibly versatile and we have expanded our range to include Antique and Verdigris finishes alongside Nickel & Tin.

Polished copper & brass finish

unlacquered

Routinely clean with warm soapy water and a non abrasive cloth and dry immediately after use. Avoid dripping taps, sharp objects and the use of harsh chemicals.

Maintain the finish by re-applying a suitable wax seal (we recommend Renaissance Wax) regularly every 4-6 weeks depending on use. More usage will require more maintenance.

If the wax wears off and oxidation develops on the copper surface, clean the bath with a fine metal cleaner, such as Autosol, and then re-apply the wax.

Please be aware that these models are not lacquered and will require regular maintenance to keep them shiny.

Our 'How To' and Maintenance videos can be found on our dedicated YouTube Channel.

Nickel finish

unlacquered

To keep the nickel finish in premium condition, the wax seal should be maintained by regular reapplication. Do not use abrasive metal cleaner on nickel plated items as this could wear through the finish. A small amount of 'Peek' metal cleaner can be used on minor tarnishing.

Tin finish

unlacquered

Our Tin Boat bath requires little maintenance.

Routinely clean with warm soapy water and a non abrasive cloth and dry immediately after use.

Antique copper & verdigris finish

lacquered

Non abrasive cleaner or warm soapywater - do not use wire bristled brushes or corrosive chemicals.

Routinely clean with warm soapy water and a non abrasive cloth and dry immediately after use.

Copper Boat

An original design by founder Barrie Cutchie.

Our Copper Boat Baths are made in the traditional hand crafted manner used for centuries, and therefore there will be gentle undulations and some colour variation in the finish so every bath is unique to you. Copper Baths are excellent heat conductors and will maintain the water temperature much longer than Cast Iron versions. Even after the bath has been emptied it will remain warm to the touch. Please note that our Copper baths come unlacquered so will require maintenance to retain their shine.

Copper Enamel

An original design by founder Barrie Cutchie.

Our Copper Boat Baths are made in the traditional hand crafted manner used for centuries, and therefore there will be gentle undulations and some colour variation in the finish so every bath is unique to you. Copper Baths are excellent heat conductors and will maintain the water temperature much longer than Cast Iron versions. Even after the bath has been emptied it will remain warm to the touch. Our enamel version has a durable layer on the inside and polished copper on the outside and is available with a matching basin.

Copper Nickel

An original design by founder Barrie Cutchie.

Our Copper Boat Baths are made in the traditional hand crafted manner used for centuries, and therefore there will be gentle undulations and some colour variation in the finish so every bath is unique to you. Copper Baths are excellent heat conductors and will maintain the water temperature much longer than Cast Iron versions. Even after the bath has been emptied it will remain warm to the touch. Our Nickel finish is electroplated onto the inside of the bath for a contrasting, luxury finish.

Brass

An original design by Barrie Cutchie, available in six finish combinations.

Our Brass Boat Bath is handmade using beautifully smooth brass sheets to form the classic roll top shape that you have come to expect from the BC Designs range. Available in two sizes – 1500 & 1700mm it comes polished and unlacquered.

We recommend a polished gold waste – and you can order an exposed version if an overflow is required.

Specifications

MATERIAL	Copper
FINISH	Antique Copper/ Verdigris
MOUNT TYPE	Floor
WASTE	Not included

BATH	CAPACITY	VOID	DRY WEIGHT
1500mm	180ltrs	110	44kg
1700mm	190ltrs	110	50kg

BASIN	CAPACITY
530mm	16ltrs

Please note

Copper is a 'living finish' and will patina over time. Copper baths and basins will need preserving to maintain the finish, so bear this in mind before ordering. Our copper baths are made from 99.5%+ 15-18 gauge pure copper.

Overflow & drilling

BC Designs Copper Baths are supplied without overflow. If an overflow is required they can be drilled on site. We can advise on how to do this and supply an exposed waste to suit. Contact us for more information.

Waste supplied separately

For more information on compatible bath wastes please refer to our website or email us, refer to bottom of page.

*All dimensions are approximate due to manufacturing tolerances.

The Boat Bath

Double-skinned acrylic boat bath.

A BC Designs classic with a deep, luxurious bathing space. Available in three sizes the Acrylic Boat Bath comes in Polished White or can be painted in your choice of colour.

Industrial Boat Bath

Available painted for personalised industrial style.

Industrial interior design, which has its roots in 1950s New York, makes the most out of playful textures including the use of cement, concrete and aged wood, along with vintage and metallic pieces. The new boat bath, which is available in matt metallic silver or hand painted in a colour of your choice, is the perfect accessory to creating this look at home.

Tiling supplied by Ca' Pietra.

Add a splash of colour

For those who like something a little bit different, we offer a bespoke bath painting service on our roll top baths.

Choose your own paint colour to match your scheme from manufacturers such as Farrow & Ball, Little Greene and Mylands Paint.

All of our roll top baths are painted to order in our workshop in Colchester, Essex.

Whichever paint you choose it must be available in an Exterior Eggshell finish and fit for purpose. In addition to these paint ranges, we can also paint your bath in a choice of RAL Classic colours or British Standard colours. We also have a digital scanning service for colour matching. Please contact us to check the suitability on any of the above.

Please allow 20-25 working days for delivery of your painted bath.

Our Process

Our in house specialist will key the bath first and then coat it with a water based primer/sealer. Using a roller the bath is then painted with 3 or more coats of the chosen colour.

We use an Exterior Eggshell paint which has a 20% sheen finish.

The paint is durable, eco-friendly and has a breathable finish.

Resistant to flaking, peeling and colour fade for up to 6 years (providing care instructions for the surface are followed).

Water, fungal resistant, washable and wipeable.

The bath will go through several processes, being quality checked all the way so we can ensure a perfect finish.

Please note

Full colour swatches can be ordered directly from the Farrow & Ball or Little Greene Paint Company websites. RAL colours also available.

Our painted Boat bath is a bespoke product and we cannot accept liability for colour chosen. It is the customer's responsibility to check the paint before ordering. We are unable to accept returns on this basis.

SOLID SURFACE

Cian® Cast

Our exclusive Cian® material is a first in its class and is manufactured from the highest quality raw materials.

It is highly durable, stain resistant, non-porous, scratch resistant and retains heat for the perfect long soak. Due to its unique properties it allows BC Designs to create classic as well as cutting edge shapes that are wonderful to bathe in.

perfect casting

Credit: Ca' Pietra. Bath shown Esseta in Khaki Green.

Why choose Cian® Cast?

Durability

Cian® Solid Surfacing will withstand the rigours of everyday exposure.

Overflow

Many of our Cian® baths are available with overflows. Please always check the specifications before ordering.

Non-porous

Unaffected by fluctuating moisture ingress and humidity, Cian® Solid Surfacing is for all practical purposes. 100% non-porous.

Polished finish

Our material does not have a deceptive gel coat and is hand polished for a luxurious shiny finish. A few of our models are also available in a Silk Matt finish.

ColourKast

Fancy a bit of colour? Something different? Our unique range of ColourKast shades are now available to order on most of our Cian® bath designs. Choose from eight distinctive colours, including Gunmetal, Satin Rose and Khaki Green.

Any ColourKast baths and basins are made to order and have a 14-16 week lead time.

Thermal shock

Cian® Solid Surfacing complies with Din 198 thermal shock standards and can be placed on heated floors.

Made in South Africa

All of our Cian® solid surface baths are manufactured in our exclusive factory in Cape Town, South Africa. We use the best and most meticulous techniques to create a material that is free from imperfections and polished to a premium finish.

Easy maintenance

A daily wipe using a non-abrasive cleaning agent will keep the surface clean. It is resistant to deterioration and minor damages can be polished or repaired.

Omnia

A First for BC Designs. The NEW Omnia freestanding bath is cast in our exclusive Cian® material and available in white, as well as our eight ColourKast shades.

The Omnia's special rim allows for a crisp edge for painting, seen here in Little Greene's Basalt, which means that we can now offer bespoke painting on a Cian® bath for the first time. Choose your paint colour to match your decor and our workshop will do the rest, delivering within 20-25 working days! The Omnia is a 1615 x 760mm in size so will sit in most standard spaces and pairs beautifully with our gold Victrion brassware.

Gunmetal GM	Light Fawn F	Mushroom M	Satin Rose R
Khaki Green KG	Industrial Grey IG	Powder Blue B	Powder Grey PG

Credit: @steelalonde Tiles by Ca' Pietra.

Specifications

MATERIAL	Cian® solid surface
FINISH	Polished inner/ Matt outer
MOUNT TYPE	Floor
CAPACITY	180ltrs
VOID	120mm
DRY WEIGHT	105kg
WASTE	Not included

Please note

When a trap is fitted to this bath, it will protrude below the floor level. Therefore, a small floor recess will have to be made under the bath to allow for that.

No overflow

The Casini does not have an overflow.

**For Installation without overflow.

Let's get social!
Phoebe Miller's beautiful home
@simply.weekend

Magnus

The Magnus Bath is an original design based on traditional fireclay models.

The Magnus has a smaller footprint than our Senator bath and a thinner rim, so the bathing area is deep and spacious. It boasts a built in overflow – click clack waste is recommended but not included.

Bath

There will be slight undulations and blemishes in the finish and these should be viewed in this light.

It is not possible to fit an overflow filler to this bath.

Senator

Available with solid bun feet.

The Senator bath is an authentic reproduction of the old 20th century Fireclay bath design but cast in our modern Cian® solid surface material. The Senator has a huge bathing area and is hand finished which makes it a unique and authentic centrepiece. It is available with or without bun feet.

Our Cian baths come without a waste. We now have a number of waste options and finishes to suit so please see product details and page 134 for more information.

How to order ColourKast

Most Cian® baths can be ordered in ColourKast – and at the same price as White! Simply state your bath's product code and add your finish to the end to order.

For example: Vive Bath in Industrial Grey – BAB064**IG**

Please bear in mind that darker colours are more likely to show up marks and imperfections.

Matching ColourKast wastes can be ordered to suit – as well as various plated finishes. All ColourKast baths and basins are manufactured in a Silk Matt finish only. While we endeavour to hold stock of most baths please allow up to 10 weeks for delivery for some models. Check with us which baths we have in stock before ordering.

For samples please contact: sales@bcdesigns.co.uk

Features & benefits

It is a colour throughout material providing all the incredible benefits of solid surfacing.

Cian® Solid Surfacing's superior process technology ensures a solid homogeneous, 100% non-porous surface.

All products are renewable and repairable due to the impermeable surface. Minor scratches and scuffs can be easily removed.

ColourKast baths are manufactured with a Silk Matt finish only — white versions are available in a polished finish.

Most of our Cian® baths have a unique integrated waste overflow system built into the walls of its baths.

All products carry a 25-year warranty.

Cian® baths can be fitted on heated floors, unlike many models on the market.

Vive shown in Industrial Grey. Credit Ca' Pietra.

SOLID SURFACE

Acrymite®

Our unique range of contemporary acrylic baths are manufactured using our exclusive Acrymite® system.

Each bath is made using reinforced acrylic panels, joined seamlessly for a one-piece look, and because we only cover the join any 'wear and tear' scuffs and marks can be easily removed.

seamless style

Let's get social!
@thebrightonbathco

Why choose an Acrymite® bath?

One piece look

Although double skinned acrylic, our Acrymite® baths have no unsightly join marks for a premium 'one piece' look.

Easy maintenance

A daily wipe using a non-abrasive cleaning agent will keep the surface clean. It is resistant to deterioration and minor damages can be polished or repaired.

Heat retaining

Our Acrymite® baths retain the heat of the room for a comfortable bathing experience.

Guarantees

Acrymite® baths have a ten year guarantee and will retain their original beauty for many years with minimum maintenance required.

Credit: The Brighton Bathroom Company

Tamorina

The new Tamorina bath is a classic egg shape with a handy rim for deck mounted taps. The slim edges allow for maximum bathing area and it is available in two sizes.

The Tamorina is fitted with a push down waste in chrome.

10 YEAR GUARANTEE

Tamorina Petite

We have gone even smaller with our Tamorina Petite bath - complete with tap ledge for the most compact of spaces! At 1400 long it is small but mighty!

The Tamorina is fitted with a push down waste in chrome.

4 BC DESIGNS BC-Solidblue

Our baths are made of the highest quality materials.

The acrylic sheet we use in our production is completely resistant to the UV rays which prevents discolouring when exposed to sunlight.

Each bath is reinforced with layers of fibreglass, resin and a special hardening composite called BC-Solidblue which makes the baths much stronger and improves insulation. As a result the water stays warm for longer.

Strength. Guaranteed.

BC-Solidblue

- Extra Strong**
Our 18mm baseboard makes the bath stronger.
- Warmer For Longer**
Additional reinforcement helps to keep the water in the bath warmer for longer.
- Highest Quality Materials**
Resistant to UV light.

Benefits

UV light resistant High quality material does not discolour.	10 year guarantee Against splitting, warping and creaking.	18mm base board Fully encapsulated technology.
Multiple shapes & sizes A full range to suit all requirements.	European manufacture Using the very latest bath technology.	Insulating properties Keeps water warmer for longer.

LIFESTYLE

Ceramics

VICTRION
 ENGLAND

BC Designs are proud to introduce the Victrion range of traditional ceramics. Choose from two basin sizes along with matching pedestals and stands.

Our overflows & brass products come in Chrome as standard but can be ordered in seven additional finishes including Brushed Gold and Copper.

Complete the suite with a High Level, Low Level or Close-Coupled WC with your choice of soft-close seat in Matt Black or Polished White.

Basins, pedestals and stands

Available exclusively through Victrion dealers.

Simple, traditional ceramics available in all tap hole configurations with optional pedestals and beautiful stands.

COMPLEMENTARY

Brassware

BC Designs have always been recognised for the authenticity of its products and so our range of Victrion brassware and shower products are the perfect accompaniment.

Each piece incorporates the latest in ceramic 1/4 turn discs and thermostatic valve technology without compromising on style.

Our brassware range is now available in various finishes to suit your scheme.
See page 125

finishing touch

Three steps to select your finish when ordering

Below are all available finishes and corresponding codes for reference.
Please note these are only graphic representations our finishes and may differ to the finishes themselves.

1

First choose
your item.

2

Decide on your
desired finish.

3

Add item code to
finish code...

Example:

CTA015 + BN = CTA015BN

Chrome **C** Brushed Chrome **BC** Copper **CO** Brushed Copper **BCO**

Nickel **N** Brushed Nickel **BN** Gold **G** Brushed Gold **BG**

Victrion Crosshead

Make your choice from our excellent Victrion tap range to complete your BC Designs' freestanding bath with our 10 year guarantee for peace of mind.

All taps are available in either domed or exposed styles.

Choose
a perfect
finish.

See page 125 for more
information.

1 YEAR GUARANTEE

All lever and crosshead taps have an option of domed or exposed collars. Please specify your preference when you order.

Please note that our taps have universal bodies suitable for both crosshead and lever heads. This means that the handles will turn in opposite directions (L- anticlockwise R-clockwise).

Why choose our showers?

Industry certified showers. Our twin, triple and dual control shower valves are manufactured in the UK by a dedicated team. The BC Designs Victrion shower valves are not just good looking! By installing one of our shower valves, you can enjoy the following benefits:

Industry certified

Our concealed twin, triple and dual control shower valves are TMV approved. All thermostatic valves are WRAS approved.

TMV2

TMV2 approval means the shower will maintain the preset temperatures even if the water pressure varies when other appliances are used, preventing domestic hot water scalding. Only concealed valves are TMV Approved.

TMV3

TMV3 approval means that the shower meets Government health & safety requirements for use in public places such as schools, hospitals etc. Together, they ensure that our showers offer peace of mind and safe showering for all the family. Only concealed valves are TMV Approved.

Safety for all the family

Thermostatic control to +/- 2 degrees even if the temperature or incoming pressures fluctuate.
Full thermal protection to prevent scalding even in the event of hot or cold water failure.
In the event of hot or cold water failure, the valve will shut down the water supply.

Reliability

See website for exact flow rates of individual valves.

Accurate flow control

Excellent flow rates – even at low pressure. Victrion showers can deliver 5.5 ltrs of water per minute at 0.1 bar pressure.
The patented thermostatic cartridge is highly resistant to calcium build-up – even in hard water areas.

Ease of installation

BC Designs Victrion thermostatic shower valves, contain a patented cartridge, which makes them simple to install and easy to maintain after installation.
The cartridge is fully reversible, meaning if hot and cold supplies are the wrong way round, it doesn't need re-plumbing. Simply remove the cartridge, turn 180° and replace.

Guarantee

Victrion shower valves come with a 10 year guarantee. Visit our website for terms and conditions.

Important information

Terms of trading

BC Designs will not normally sell directly to the consumer and for this reason our published terms and conditions relate to the supply of goods on a business to business basis. Terms and conditions applicable to the end user are also those offered by the outlet from where you purchase the item and may vary. For this reason, end users should always refer any issue to the point of purchase in the first instance.

Guarantee and warranty

We offer a 1-year guarantee against structure faults on all mirror products and wastes in this brochure. This may be enhanced by warranties offered by the manufacturer; however, it is important that you follow the manufacturer's instructions in registering for any such benefits. We offer a 10-year guarantee against manufacturing faults on our unique range of baths and non-electrical products. In either instance, all products must be fitted in accordance with both the instructions and any relevant regulations that apply to the country in which they are fitted. They are supplied for normal domestic use only. We do not cover products against fair wear and tear, misuse, incorrect usage, incorrect installation, incorrect specification, malicious or accidental damage, negligence or lack of servicing. Guarantees and warranties are non transferable. Proof of purchase will be required to validate any claim. No claim greater than the purchase price paid to BC Designs or for consequential loss will be entertained by BC Designs, except where negligence on the part of BC Designs is proven. When installing baths with pre-fitted wastes it is your responsibility to check for leaks, loose fittings and seals as well as levelling issues. Special finishes on wastes, brassware and accessories have a 1 year guarantee.

Authenticity

Many products in this brochure are made using techniques rarely in common use today. This is to recreate an authentic period look and this should not be confused with mass-produced, featureless product and thus construed as imperfect. Where applicable this is highlighted in our information on individual products.

Printing accuracy

Prices are for guidance and are correct at the time of going to print but do not constitute a formal offer as prices may have to change due to unforeseen circumstances. Accordingly, all prices are those ruling at the date of despatch.

Photographs in this brochure are studio posed in a setting intended to demonstrate the ambiance and look of the main product featured, unless otherwise stated. All items used to dress the shot are photographer's props and therefore we are unable to advise on them.

Availability

We aim to maintain stock of all items in this brochure at all times. However, the majority of items contained herein are produced in small volume and in specialist circumstances and can therefore be affected by significant lead times. Availability should be checked at the time of ordering and before making any commitment to installation.

Measurements and specifications

All measurements are given for guidance only. Variation may occur either due to manufacturing tolerances, specification change, error or admission. We reserve the right to change specifications at any time. For this reason, it is recommended to check critical dimensions with BC Designs prior to ordering. BC Designs will not accept any liability where there is no prior written advice of critical requirements.

Bespoke orders

Special orders are only accepted in writing. Delivery periods can not be guaranteed. Cancelling will only be accepted in writing and can only be accepted prior to production or despatch of the item. Bespoke products that are specially ordered, such as painted baths, will not be accepted for return.

Delivery

We use third party couriers and hauliers. All deliveries are FOC (at a cost of over £125 net to BC Designs) to a commercial address, with the exception of overseas and out of area postcodes. At the time of order a confirmation will be sent which will include all delivery information. Deliveries to private addresses and those requiring premium services in excess of those described above will incur additional charges. Please contact our Sales Office with your requirements to obtain a quote. Orders for less than £125 net will incur a carriage charge of £8.95. For further delivery information please visit our website.

Damage in transit

All products supplied by BC Designs are carefully inspected prior to shipping, and every care is taken with packaging to ensure orders arrive in good condition. However, sometimes things can go wrong. As we do not use our own transport there is a limited time in which we can make a claim for any damage in transit against carriers. For this reason, outer packaging should be inspected for obvious signs of damage before accepting delivery and all items should be opened and inspected before signing. We cannot accept claims for damage in transit after this, nor will we accept any responsibility once goods have been passed to a third party without prior inspection.

Returning goods

Items which are unsuitable or not required may be returned subject to the following conditions:

1. BC Designs must be contacted prior to any item being returned and returns documentation obtained. BC Designs will not accept any responsibility where this requirement has not been complied with.
2. The original BC Designs invoice number must be quoted when contacting BC Designs. BC Designs will only deal with the persons to whom the product was originally invoiced.
3. The item to be returned must be in perfect re-saleable condition when received at BC Designs. We will not accept any items for return which have been fitted, used or in a condition other than that which it was supplied.
4. The retail packaging must be unmarked and in good condition. For this reason, it is wise to retain all packaging materials and to open packaging with care.
5. It is not the responsibility of BC Designs to organise or pay for the return of goods in these circumstances.
6. In selecting a suitable method for return consideration should be given to proper insurance as BC Designs cannot accept liability for goods damaged in transit.
7. Responsibility for packaging the item in a suitably robust fashion lies with the sender. If there is any doubt as to what a suitably robust fashion means please contact BC Designs for specific packaging advice.
8. Items damaged in transit will not be accepted for refund/credit.

Please be advised that our Terms & Conditions have been amended to reflect a £100 plus VAT restocking charge for any bath orders cancelled after despatch with immediate effect and a 25% restocking charge for small items. If you have any queries regarding this please do not hesitate to contact our Sales Team.

Claims after installation

No claims will be entertained other than for a genuine manufacturing fault after installation has commenced. Visible marks, scratches, impact damage, discolouration through chemical contamination, etc will not be accepted as genuine manufacturing faults. Proper care should be taken to protect the product from damage during installation and through to commissioning.

Your rights

Any agreement between BC Designs and the Customer shall be subject to and governed by the domestic law of England. No agreement between BC Designs and the customer can be deemed to be binding howsoever proposed or made in the event that such agreement is found to conflict with English law.

Full Terms and Conditions of supply are available on request.
